Who We Are

iDevia is dedicated to providing you with the results you need to gain online visibility. We will conduct a thorough investigation to find out everything there is to know about your target audience and how we can utilize your website's content to drive traffic and turn your visitors into paying customers. By listening to you and determining your business needs, we will put together a successful plan that will help you accomplish your goals and change the way you do business online.

iDevia is a digital agency which provides services to companies and other agencies. We build applications that generate revenue using the latest in web and mobile technologies. Our approach is different than most, because we take time to learn your business inside-and-out before we make a single technology choice.

The end product you're looking for may be an Android app, iPhone app, a revamped company website, or a new web application, but we know any technology is just a means for making your business more intelligent, more efficient and ultimately more profitable. A core strength is our engineering prowess. Looking to build a powerful analytics platform, transform billions of datapoints, or build the next billion dollar technology? Good. We are too. Designing software isn't like adding a coat of paint. Well-built software thinks about users and their needs. We engrain our user behavior analysis and human interaction into every project.

SEO and Digital Marketing

The following services are just a part of the SEO implementation process:

- Improving website coding (validation, large files, extra code)
- Improving site speed
- Improving linking hierarchy
- Improving navigational structure
- Removing bad outbound links, fixing internal link structure, removing dead links
- Optimizing design and page structure
- Optimizing website information hierarchy
- Optimizing content and content to keyword ratio
- Creating proper tags, anchor text links and image tags
- Finalizing readability and usability of your website
- Backlink acquisition & link building
- Social media optimization & brand awareness

Timeline will be given after discussion and nature of the project.*

Logo Design Process

Your logo is a key pillar of your company's identity, and the process through which it is created and refined is important to your long-term success. We see a lot of competitors who ask a handful of questions before disappearing for a period of time, returning with a logo and an invoice. We prefer to take a more collaborative approach that keeps you involved at every stage.

Here's what to expect:

Understanding Your Brand

We feel that your logo should communicate both who and what you are. It should speak to your audience on a subconscious level and make a positive impression upon them. We begin every logo design project with a client interview, during which we'll attempt to build an understanding of the tangible and intangible things that make your company and team unique.

Concept:

Before we draw a single line, we'll discuss your vision for your company logo with you. We don't want to waste your time with logos that don't fit your vision, and we don't want to overwhelm you with dozens of options. By working with you to set a standard up front, we'll be able to develop a handful of options that meet your expectations.

Review & Revise

We'll present you with a few options that we've created based on the information you've given us. You'll have the opportunity to review each of them and provide feedback for revisions. In many cases, our clients end up combining elements of several early logo designs to create a final product they're happy with.

Delivery

Once we've crafted a logo design that you're happy with, we'll provide you with all of the digital files you'll need to put the logo to good use, as well as a release granting you sole ownership of your new company logo.

Timeline will be given after discussion and nature of the project.*

A blue-tinted background image showing a close-up of two hands shaking in a firm grip, symbolizing a business agreement or partnership. The image is slightly blurred, focusing on the hands in the center.

CLIENTS

Our Clients

Testimonials

"We had a great concept and good product, but we just weren't attracting the customers. And we didn't know why. Through a referral, we hooked up with iDevia and we couldn't be happier. In just the first month, our rankings went through the roof and we haven't looked back since."

Jerrod Sessler,
Easy Profit Game

"Sometimes you think you're the only one who knows what's best for your business. In my case, I never knew the value of a strong web presence. We're a century-old, family-owned company and technology has never been our strong suit. Thanks to iDevia, we now understand where the future is headed and how to keep the company strong for future generations."

Noreen Lucey,
Founder, HIE

iDevia is great to work with. They can complete a variety of tasks and it has been great working with them

Hussein Kirefu,
Founder, Fidiyo

I could not recommend iDevia highly enough. They goes above and beyond the expectations of the job. I thoroughly enjoy working with them and am extremely impressed at their efficiency and skills.

Mahesh Babbu Gutta
Founder, Rera Agents
